**Carson, Lana, Koen and Riley**

**Clay, Shannon, Matt, Madison and Merit**

**Scott, Mia and Luke Turner**

On behalf of everyone at Peak Dot Ranch, I would like to welcome you to our 2007 Spring Bull and Female Sale.

Time flies! It was thirty one years ago, in 1976, that we put on our first bull and female sale. At that time, Carson and Clay were 5 and 6 years old and Mia wasn't born. Steve Dorran was auctioneer and Dennis Ericson was ringman. Our land base has grown, our cow numbers have increased and I now have 5 grandsons and 1 granddaughter that will keep this sale going for the next 30 years and beyond. It's a family run operation whose income is derived solely from our cow herd.

We think of our cow herd as a factory that has to produce a product that will work for top producing commercial and purebred cattle people. With over 45 years of selection and culling, we feel that we have built a cow herd that is second to none in North America. You will find a very uniform strong set of bulls and females with the first lot and the last lot very similar.

It gives me great pleasure to look at the stands before our sale starts to see new customers and customers of 30 years enjoying the sale with their children and their grandchildren. My good friend Steve is selling the sale with his son Ryan taking bids along with Dennis Ericson and Bryon Wolters. Good cattle and great people are what it's all about! Once again, Welcome!

Terry

## SAV 8180 TRAVELER 004

The breed's most popular performance sire earning EPDs for Weaning and Yearling Weight in the top 1% of all current sires. He consistently stamps his calves with length, thickness, muscle and pounds, along with an easy-fleshing, attractive appearance. He sired the world-record-selling sire group of bulls in the 2005 SAV and 2006 Sale, while his daughters are making beautiful brood cows with well-designed udders. Traveler 004 has shattered all semen sale records at Genex A.I. Stud to become the most widely used bull of his era selling over \$1000000 worth of semen in one year.

SAV 004 Predominant 4438 was selected by Peak Dot Ranch as the featured lot 2 bull in the record setting 2005 SAV sale. He is a massive, deep chested, big volume bull with abundant thickness, muscling and fleshing ability. Early indications are that he will be the cow-maker son of Traveler 004. His daughters are exceptionally deep and broody with the productive look of his Emblynette maternal lineage. His sons are masculine and muscular with moderate frame. SAV 004 Predominant 4438 was one of the most heavily used bulls at Schaffs in 2006 and promises a bright future.

### NEW ADDITIONS TO THE PEAK DOT HERD SIRE BATTERY:

#### Paternal Brothers to SAV 004 PREDOMINANT 4438

We have gone through 400 of his sons and were able to purchase 4 sons which we believe are his very best- four 3/4 brothers which are all out of SAF Bando 5175 daughters. The cross is magic!

#### SAV 004 AUTOGRAPH 5204

B.W.76lbs. 205 D.WT. 886lbs. Y.WT. 1452lbs.

One of the premier calving ease bulls to sell anywhere in North America last year. This powerful curve bender doesn't make any compromises when it comes to performance. Exceptional length, all black with muscle and style, Autograph and his brother SAV 004 Traveler 5234 were Terry's, Carson's and Clay's pick as the top two bulls of the entire record breaking 2006 Schaff sale. We could not separate them so along with our partner Ring Creek, we bought them both. This fault free tank moves with style and herd bull character. He comes equipped with 41 cm testicles and is as quiet as a kitten.

#### SAV 004 CAPACITY

B.W.80lbs. 205 D.WT. 904lbs. Y.WT. 1462lbs.

This calving ease bull records a breed leading EPD portfolio and offers as much natural thickness and volume as any other Traveler 004 son to date. At weaning time in September, Carson and Terry picked 5234 as the best bull out of nearly 500 bulls. The day before the sale we went through the bulls again and Clay's number one pick was 5234. Terry says, "This bull could be the best herd bull prospect I have ever seen. Wide in his pins, exceptional width in his quarter, clean sheath, excellent scrotal development, and gentle disposition." We thought that 5234 and Autograph were the two thickest bulls in Schaff's 2006 sale and in our minds they were easy standouts.

#### SAV EMBLYNETTE 1182

The productive dam of SAV 004 Predominant 4438 who records a weaning ratio of 113 on three calves and owns the eighth highest weaning EPD among all current dams of the angus breed.

#### SAV EMBLYNETTE 7319

This prolific Pathfinder cow is the grand dam of SAV 004 Predominant 4438, she records a weaning ratio of 110 on 5 calves.

Hobson was the lot 1 bull and high selling bull out of the Stevenson-Basin 2001 sale to Peak Dot Ranch for \$16000(U.S.). He was the second highest actual weaning weight calf at Stevenson-Basin Ranch. He ranks in the top 1% for milk EPD. If you are looking to put some power, performance and punch into your herd while improving maternal traits, and scrotal size, Hobson hits the target.

When searching for herd bulls one thing we always try to find is a great producing mother cow, but even more importantly we look for bulls that come from consistently strong breeding lines. By this we mean they come from a line that have the added ability to stamp their calves with their own distinct style and character. The NEW TREND line has been breeding very well and very consistently for years. NEW TREND 4100 is the newest and strongest breeding bull to rise out of this proven line of cattle. NEW TREND 4100 consistently stamps his calves with extra length, heavy muscle, clean sheaths, and thick hair coats.

# PEAK DOT HERD SIRE... BASIN PRIMECUT 354K

## Basin Prime Cut 354K

Basin Prime Cut 354K is as trouble free as you can design them. He has excellent muscle design, good loose flank and the fleshing ability the industry strives for. You'll find him solid black without a white hair, and equipped with an excellent set of testicles. He is a calving ease bull with tremendous growth. Basin Prime Cut 354K is a changer and an improver, the rare kind that has character and herd bull written all over him. His sons are always favorites sale day while his daughters are making feminine, broody females with abundant milk and quality udders.

We calve 650 cows beginning March 20th. Included in this number are at least 125 heifers. We started in 2004 with a Peak Dot Prime Cut Bull on 25 black heifers. All these calves were born unassisted. In 2005, we went back and bought another two Prime Cut bulls to use on more of our black and red heifers. We have calved out 125 heifers bred to Peak Dot's Prime Cut bulls with 100% unassisted births over the last 2 years. These calves are strong and lively from birth and come fall are right there in size and weight with the mature cow's calves. Our Prime Cut bulls have excellent feet and dispositions and are very easy keepers. In our operation these bulls have removed the stress of calving- we do not even check at night anymore and most heifers calve in large shed pens. This year we have 75 heifers bred to Peak Dot bulls. Their bulls work for us.

Basin Prime Cut 354K is a model for all ranch cattle. We purchased an old son of Basin Prime Cut in 2003 and he is by far our favorite bull-very stylish, moderate framed, but best of all just plain tough. He literally maintains himself on a straight hay ration. We were so impressed with Basin Prime Cut we AI bred over 100 cows in 2006 simply to retain daughters out of him and plan to breed more to him in 2007.

Not all Bulls are created equally, the calving ease and extra pounds of performance by the Prime Cut Bulls we have purchased over the years have resulted in extra profit at the auction barn for us.

Ron Nicholson

Running an 800 head herd by my self has been made easier by the calving ease of Prime Cut bulls. The premium I get when I sell my calves is an added bonus. The heifers bred to Prime Cut bulls that I have sold over the years have by all reports eliminated calving problems and brought me nothing but complements.  
 Gerry Duckworth  
 Duckworth Ranches

The two Basin Prime Cut sons that I purchased in 2004 have held up real well. Each year they return home from the breeding pasture in the same condition they were in when I turned them out.. The Prime Cut daughters as a group look like they're going to make some excellent cows.

Doug Davidson

We have been using Peak Dot bulls for the past fifteen years and attribute them to the success of our cattle operation. We have found the Prime Cut bulls we have used to have good disposition, produce easy birthing calves with very low birth weights. We calve late March and early April and wean mid October with top weaning weights earning top dollar on market day. We have been building up our herd by keeping replacement heifers that are of excellent size and quality

## Predominant Heifers...

**HEROINE OF PEAK DOT 543S- LOT 3**

This female is worth the drive to see, if you want to be in the winners circle or just own one of the best females ever raised at Peak Dot. An attractive fronted Predominant daughter with loads of volume and shape. She recorded an adjusted weaning weight of 758lbs and a weaning index of 114. Her productive dam is sired by HF Most Wanted 46H. She sells along with 46 other daughters of SAV 004 Predominant 4438. This female offering is the strongest to date with an opportunity to purchase genetics from one of Canada's reputation herds.

**ERICA OF PEAK DOT 527S- LOT 4**

This outstanding show and brood cow prospect from the Erica family has been a favorite since day one. She displays herself beautifully, feminine and broody with massive volume, substance and power.

**PANSY OF PEAK DOT 525S- LOT 5**

A deep broody female with a productive look. She posted an adjusted 205day weight of 820lbs and a weaning index of 123. Her Dam Pansy of Peak Dot 329J is a donor cow and produced 26 good embryos on her first flush.

**SALLY ANNE OF PEAK DOT 522S- LOT 6**

A real treasure of the 2006 calf crop with credentials to work anywhere. She is attractive fronted with lots of shape, substance and style that give the SAV 004 Predominant 4438 heifers a look of their own.

# Peak Dot Ranch Heifers...

## Predominant Heifers...

An exciting pair of twin sisters with EPDs that position them near the top of their calf crop. Predominant X Hobson = heifers that have sweet front ends plus loads of rib volume and dimension. Their easy fleshing Hobson mother has a picture perfect udder that

If it is your game plan to start in the purebred business and you have already bought some good heifers in earlier Peak Dot Sales, get in on this group and build up your herd. We've learned long ago that to build a cow herd you need a solid base of the same genetics, so here is an opportunity to tap into decades of selection. These yearling heifers represent the freshest genetics at Peak Dot Ranch with many brood cow candidates and several show and donor prospects included. All females are raised on grass without creep and mothers milk alone, functionally developed to maximize longevity, milk production, and long range earning potential.

## Predominant Heifers...

**LADY OF PEAK DOT 538S - LOT 107**

A beautiful replacement heifer out of the renowned Lady of Peak Dot 615K, the high selling cow to Ring Creek from the 2006 fall sale. She holds excellent EPDs, a productive look and endless earning potential.

**LADY OF PEAK DOT 615K - DAM OF LOT 107**

**HEROINE OF PEAK DOT 666S - LOT 108**

This heifer is blessed with natural thickness and elegance, compliments of the perfect mating of Predominant to Hobson. Her dam Heroine of Peak Dot 721P is an Embryo donor at Peak Dot. This heifer should be a knockout producer.

# Peak Dot Ranch Heifers...

## Powerline Heifers...

**HEROINE OF PEAK DOT 464S - LOT 109**

A standout heifer every time you enter the pen. Her productive dam consistently cranks out the bulls putting herd sires at Allanville, Paysons and at Melanie Welsh's. She traces back to Peak Dot Heroine 246B a foundation cow that can also be found in lot 108 maternal lineage.

**ROSILLA OF PEAK DOT 585S - LOT 110**

Do not over look this April heifer- she has all the credentials to make a superb female. She posted a 205 day weight of 739lbs and a weaning index of 110.

**PEAK DOT FAME 26R - maternal brother to lot 109**

## SAV 004 PREDOMINANT 4438

If you really want the influence of a great cow, the fastest and most efficient way is through her son.

## SAV EMBLYNETTE 1182

The productive dam of SAV 004 Predominant 4438 who records a weaning ratio of 113 on three calves and owns the eighth highest weaning EPD among all current dams of the angus breed.

## SAV EMBLYNETTE 7319

This prolific Pathfinder cow is the grand dam of SAV 004 Predominant 4438, she records a weaning ratio of 110 on 5 calves.

### "The cow-maker son of Traveler 004" Kelly Schaff

Early indications are that SAV 004 Predominant 4438 will be the cow-maker son of Traveler 004. His daughters are exceptionally deep and broody with the productive look of his Emblynette maternal lineage. The productive and prolific Emblynette family has been developed and refined over the course of the last 60 years at Schaffs Angus Valley. This family has consistently generated superior females in terms of fertility, longevity and maternal value, while producing high performance herdsires for leading commercial and registered cattlemen.

# Peak Dot Ranch Fall Bulls...

**PEAK DOT HOBSON 634R- LOT 159**

One of the best looking herd bull prospects to come out of the fall pen. A thick wide based bull with length and volume. His moderate sized dam has been an excellent producer raising feature bulls which have sold in past sales to Kevin Woods and Currah Farms. She also has two daughters active at Peak Dot.

**PEAK DOT MOST WANTED 243N**

A MATERNAL BROTHER TO LOT 159. SOLD TO KEVIN WOODS IN 2005

**PEAK DOT HOBSON 624R- LOT 160**

A Hobson son that possesses extra thickness, muscle and pounds, with massive volume, large testicles and a friendly disposition. He recorded a 205 day weight of 859lbs and a weaning index of 108.

*PEAK DOT PRIME CUT 615R- LOT 183*

A strong age bull by Basin Prime Cut that will cover a big pasture. He is a wide made bull with a good set of pin bones, and a long hip. His General Stone dam has been very consistent producing a full brother that sold to Kirby Hugo and a maternal brother that sold to Rick Key. She also has a daughter working in the Peak Dot herd.

*The Dam of Dynamite*

**MOHNEN JILT 910**

The Lot 1, \$39,000 top selling bull from the Mohnen Angus 2007 Production Sale at Platte, SD. sold to Peak Dot Ranch. We purchased this bull for his added performance, depth of body, doability and great scrotal development. He has an excellent disposition and is all black .Dynamite has a big stifle muscle, clean sheath, deep flank and a loose pliable hide like you would find on a good hereford bull. He is sired by Baldrige Kaboom a bull that consistently sires attractive, thick made cattle that are easy to look at with great feet and leg structure. Dynamites dam Mohnen Jilt 910 is solid black with an exceptional udder and long hip. She has generated over \$100,000 in progeny in the last two years. She serves in the Mohnen embryo donor program. She is also the dam of Genex sire Mohnen Day Ahead 144 and Mohnen Pioneer 1945. This past summer they're was a delegation of breeders from Australia that spent 20 days touring angus herds in the United States. At the end of their tour they held a meeting- they listed Mohnen Jilt 910 as one of the top 5 cows they had seen. Dynamite is currently being collected at Dakota Breeders in Mitchell, SD. He froze 70 straws of semen on his first jump. As soon as a large enough bank of semen has been collected, he will return to Peak Dot Ranch where he will see heavy service.
